

**1,600 cc**  
Displacement

Turbo charging:  
**Single turbo**

**125,000 rpm**  
MGU-H max revs

**702 kg**  
Weight with water,  
lubricant and driver

**8 + Reverse**  
number of gears

Chassis:  
**carbon-fibre**  
and **honeycomb**  
composite structure

**13"**  
OZ wheels

## DID YOU KNOW...

**250.000**  
Manufacturing  
working hours

**20.000**  
different pieces for engine,  
gearbox and chassis

**300**  
suppliers from  
15 different countries

**1.500**  
hours  
in wind tunnel

**20.000**  
sq meters of **carbon fibre**  
**honeycomb** for the  
composite elements

**100**  
different  
metal alloys

**700**  
people working on the  
project inside Ferrari, but  
at least as many again in  
the supply chain

**15,000**  
Max Revs
